

WHAT YOU NEED IN YOUR PDGM Toolbox

Do you have all the tools needed to be successful in the Patient Driven Groupings Model?

Home health care agencies are challenged to develop and implement a plan to meet all of the requirements and optimize reimbursement. Relias' tools and courses can help you rise to the challenge, standardize your processes, and manage your staff's development.

PATIENT DRIVEN GROUPINGS MODEL

PDGM requires providers to examine patient needs, comorbidities, and referral sources to determine if their case mix will optimize reimbursement.

FACILITATE CORRECT CODING

Quick and accurate coding will be critical to drive reimbursement and guarantee the right treatment for patients.
